

Urma stands for "efficiency in holemaking and tool pre-setting". Established in 1962, Urma is a family owned Swiss precision tool manufacturer. With an export share of more than 85% we supply high-performance solutions to many thousand satisfied customers in more than 30 countries worldwide. We offer technical support and training through a well trained distributor network, Urma Technology Centers (UTC) and subsidiaries in Germany, China and Brazil. (contacts see www.urma.ch)

We are pleased to offer Urma products and services to the Haas Technical Education Centers (HTEC). You may contact either your local Haas Factory Outlet (HFO) or Urma directly.

UrmaSystems

Modular boring systems from diameter 0.3 up to 2400 mm. Two type of connecting systems guarantee high flexibility and stability. A wide range of roughing tools and balanced or unbalanced fine boring heads enables high precision boring.

UrmaCircoTec RX

A revolutionary reaming system that turns the reaming upside down. Designed for both high volume production and repeating

small series production. It's unique design stands for high-performance and high-precision finishing and is very simple in handling.

UrmaDigiset 2

Simplicity in tool pre-setting. Probably the most easy to use high precision pre-setter on the market. Perfect for HTEC's and factories where operators frequently change. With a minimum of instruction, everybody is able to set tools in no time.

Haas Automation

An important part of Urma is the Haas Factory Outlet, a division of Urma Switzerland. Since 2003 we sell and service Haas CNC machines in the Swiss and Liechtenstein market. With our daily experience as HFO we clearly understand the needs of HTEC's and HFO's. Who else can do that?
